Interesting Talk With President Marvin on the Subject.

TWO SIDES OF AN IMPORTANT AFFAIR

There was considerable of a stir in certain quarters last evening over a statement that Mr. J. F. Nicholson, the gentleman who came here from Cincinnati to gather \$500,-000 for our new Exposition, had become weary of the task and proposed handing in his resignation on Tuesday. As the readers of THE DISPATCH are aware, while the advantages of an Exposition seem perfectly clear to everybody, substantial aid was slow in coming. It was thought that Mr. Nicholson's successful experience in similar enterprises at Cincinnati would solve the question here. A large salary was offered him, but he felt so confident that he preferred to work for a small percentage. For two months past he has been, with his family, domiciled at the Monongahela House.

Mr. Nicholson now says that life is too short and time with him too precious to go on soliciting from Pittsburg business men with no better results than he has so far

A DISPATCH reporter, to get at the in side of the matter, called upon Mr. Nicholson last evening and asked if the rumor was true. The gentleman replied that it was, and went on to make some interesting remarks besides, which, if not wholly complimentary, are at least instructive. Mr. Nicholson said:

"There is no unaminity of action in this city; each line of trade watches the other. and they delay action while they calculate the benefits to themselves and other lines of

"I leave this city with only regret for the society; but the climax was capped vesterday when a prominent and well-known projector of enterprises sent his secretary capital in Pittsburg, and had brought millions of foreign capital into it, but that he had not been appreciated. On the contrary, | Patton said yesterday afternoon: he had been jumped on in the courts, his ventures were frowned upon as schemes by the city, and he was not going to put a more than there was any necessity for. I knew cent into an Exposition scheme; the city him well. Judge Greer, Stanton and myself could take care of its own public ventures, and he would take care of himself? were warm personal friends, and I understood both men perfectly. Judge Greer often told

"As it is now, many lines of business are not represented at all in the Exposition list. Take music for instance, whose loans to the fund amount in toto to only whatone manufacturing concern offers, and it receives but one-tenth the benefit. Their apathy is simply amazing.

"I leave here with only one regret, not that I have spent \$1,000 for nothing, but that I have spent \$2,500,000 there directions will not bring them the business of one year's Exposition. Just think of it, \$00,000 strangers annually, spending an average of \$5 a head, means \$2,500,000 brought into the city; but your so-called business houses quitble and ask "What has business houses quitble and ask "What has here are for the united States and previous training amply fitted him for the position.

When he was Secretary of War I called on him one day in the War Department. He was suffering from a violent cough that made his frame quiver. I told him at the time if he couldn't check that cough it would kill him, and it did.

My hat here are an and the regarded Mr. Stanton as the ablest lawyer of his age. He was indeed a remarkable ment hat he regarded Mr. Stanton as the ablest lawyer of his age. He was indeed a remarkable man. Even if he hadn't the temper he had his personal traits and manners would have made him unpopular. The South cordially hated him. They thoroughly despised the man who worked so hard to defeat them.

Now, it is commonly said that Stanton committed suicide, but that is not true. He died from the effects of a severe cold. I never knew a man who had a greater desire to live. After the war, when he was appointed Chief Justice of the United States, he had reached the height of his ambition. He was anxious to live to enjoy the office, but he died soon after ward. His tastes and previous training amply fitted him for the position.

When he are garded Mr. Stanton committed suicide, but that is not true. After t business houses quibble and ask, 'What has my neighbor done?"

"Many of your leading manufacturers here, who have made a petty loan, refuse to increase it at all. Efforts at a revival may, in other hands, I trust, prove more successful than in mine.

THERE IS A CHANCE

for raising the fund; but excuse me, I have not a lifetime to spend on you people. I am going back to Cincinnati, into the real estate and stock business, and I wish von for such it will be when it is finished. "If your people do not come forward with subscriptions the buildings must be aban-doned or mortgaged, and bonds issued, and

hen when it is completed and running beautifully your conservative firms will arise and raise a howl and say the stockholders are making money out of a public institution. Of course they will be, unless ousiness houses take hold of it. 'My resignation will be a surprise Tuesday, and I am sorry to leave; but I have already accepted contracts for leading

American houses in the Paris Exposition this year, and I have no time to lose. The Exposition will go through, if a splendid board can put it through; but I have no time to waste. I am going back to God's country-Cincinnatt. "By the way," concluded Mr. Nicholson,

"I want to say that never before in all my varied experience have I seen the newspapers of any city so ably and unanimously take hold of a scheme and give their best efforts to put it through. If it depends on the newspapers of Pittsburg to put up those Exposition buildings, they will be finished and open for business on the 1st of August," and the genial, gentlemanly Nicholson had

Mr. S. S. Marvin, President of the Exposition Society, was interrogated in regard to the facts recited above, and said:

"The project will not be abandoned, and can say in all sincerity that it will be mpleted, notwithstanding the adverse cirmstances which we had to contend against. is supposed that from all the information e have been able to gather that the present soard of directors will be re-elected. This means that renewed efforts will be made to ourry Pittsburg business men up, and make them see the necessity for sending their subscriptions in at once.

"If the present board is not re-elected, others will be put in their places who will not let the interest in the scheme lag. I hardly think that any others want to be on the board, as the office, instead of being a light-hearted pleasure, has become a burdensome task. If new members are elected, we will keep harping at them until the raise

all the money necessary.

"As Mr. Nicholson says to your reporter, there is a lack of unanimity of public senti-ment about the Exposition. Rich business men ask 'What good will the Exposition do me?' I know of several jewelry firms in this city who subscribed \$100 each. The idea of \$100! Why, that amount is made by them on one sale! There are others in business who subscribe the same small amounts who do not think anything of making that amount of money in a few

"I have received any number of letters from men who were among the first to send in subscriptions. They tell me that when

their work. I am extremely sorry that Mr. Nicholson was not more successful. He is a perfect gentleman, being courteous, pleas-ant, polite and very nice in his conversa-tion. He tried to do everything to get the money, and the tailure is no fault of his. "Mr. Nicholson says that we would have 500,000 admissions to the Exposition in a year. I will go farther, and say that we will have a million. To get these people, though, we must have something better than

"I think that a month from now will see us in much better shape than we are now. For the past week and next week merchants have been busy and will continue to be busy taking stock in their stores. When they see how they stand and how much money they have made the past year, they will come in with good subscriptions.

IT MAY BE DELAYED.

"There is one thing certain, if we do not get more money very soon, there will not be any exposition in this city next fall. An exposition cannot be built in 30 days and the people should not put the matter off any longer. The merchants should take it up at once so there will not be any more delays.
"I wish every member of the society
would go down to the Point and see the buildings as they now stand. Then they would come to the meeting and redouble their efforts to raise the money.
"There are over 800 subscribers in the

society, and they are worth on an average about \$100,000 each. Where could you get more tangible wealth?
"We have only about \$140,000 subscribed for. All of this has been paid in with the exception of about \$25,000. We had \$10,000 subscribed on condition, \$5,000 was promised by William Thaw and another \$5,000 by Andrew Carnegie if we got \$5,000 each from three other gentlemen of the city. When this offer was made we thought that we could easily raise the other \$15,000, but Mr. Nicholson has gone to every person almost in the city, but could not get one-third the amount. Unless we raise the \$15,000 we disorder, only to find the doors of the men will not get the subscriptions from Mr.

Thaw and Mr. Carnegie.
"I cannot, for the life of me, imagine that, in a city of so many wealthy men, three could not be found to subscribe \$5,000 each. From the date of the formation of the society I have not for one moment thought otherwise than that the Exposi-tion would be built, and it will be an Exposition that Pittsburg citizens will be proud of. In conclusion I may say that the scheme will not fall through.'

TO KEEP HIS MEMORY GREEN.

Judge Patton Collecting Material for a Life of Stanton-His Glowing Tribute to the

War Secretary. Judge Benjamin Patton, of Hicksville, O., is at the Monongahela House. The Judge formerly lived in Pittsburg and is well known here. He has come to spend a few weeks in the city, and will take advantage of his opportunity to collect material and reminiscences for a life of Edwin M. Stanton. The Judge wrote what he knew about the distinguished Pittsburger, and the gentlemen getting out the book were so well pleased that they asked him to furnish more facts about Mr. Stanton's life. out to say that he had spent thousands of The Judge would be pleased to receive personal reminiscences of the war secretary in the possession of anyone in the city. THE EPIPHANY DEDICATED.

Bellevue's New Episcopal Church Opened

for Worship. Under the most favorable auspices the Episcopal Church of the Epiphany was dedicated in Bellevue, with services in the morning, afternoon and evening, yesterday. The pretty little edifice was taxed to its utmost to hold the congregation, and the services, which were conducted by the Right Rev. Cortland Whitehead, D. D., Bishop of the diocese, assisted by Rev. Messrs. Bragdon and Dyces, were most im-pressive. The music was under the direcion of Miss McKinley, and the organ was

in charge of B. L. Orr.

The attractive edifice, which was described fully in these columns and illustrated at the time the corner stone was laid, last autumn, and the story of the rapid growth of the church and congregation was recited. Crowded columns this morn-ing leave only the possibility of alluding to the dedication of the church, almost free from debt, and to congratulate Rector

Dyees and his promising congregation.

Holy communion and confirmation services were held in the morning; the afternoon was devoted to children's service and holy baptism, and in the evening there was a service of prayer. A number of persons from this city were present.

YOUNG CATHOLICS' CLUB.

The Gymnasium to be Opened After the Fair

Has Been Closed. The Young Men's Catholic Club, connect ed with St. Paul's Cathedral, held a meeting vesterday in the basement of the church and adopted a new constitution and by-laws. The club is now in a flourishing condition, and the membership is increasing each week. The attendance at the club rooms for the past week has been very liberal owing to the new stock of books and magazines that. has just been received.

As soon as the fair closes and Father Wall

has more time to devote to the boys a gymnasium will be fitted up in the old Episcopal residence. The use of two large rooms has been secured, and all that is needed is the muscular appliances.

their way rejoicing. This original pool, like the hot springs of Arkansas bears a peculiar resemblance to the present druggists' pool, and the mud in the latter has been stirred up from its very depth. This simile may not be very clear, but it is apt, and the tardy one who came moseying down to the pool after office hours received as great a shock as the man who hustled around yesof pills and pomade closed against them.

Of course the pool of Siloam got in its fine work many years before physicians and druggists were invented, in the days, by the way, when men lived to be a few hundred scarcely struggle through with the odd years. This may merely be a startling coincidence. Nevertheless there are some people who still pin their faith to the Bible. WHY THEY ARE MISSED.

There is a sweet old English ballad that says "You'll never miss the lager till the keg runs dry," and so it is with a physician or a druggist. You never miss him until he can't be found, and of course you never find him if you miss him.

When a man wants a druggist, he wants him real bad, and to be stared in the face by a cold statement on a printed card that "This store will open only from 6 to 9" is calculated to aggravate both his indisposition and his temper. "Great heavens," groaned a victim of Saturday's laxity and Sunday's laws.

With. "Great heaven, I repeat, do they expect me to get sick by the clock? Am I only to be seized by smallpox, diphtheria or the gripes between the hours of 9 and 12 A. M. and 6 and 9 P. M. on Sunday. Must I go home and calmly explain to my 6-months'-old child that she is entirely out of order and hasn't the proper respect for her country's blue laws when she insists upon acquiring a large quantity of croup out of office hours? Must I demonstrate to my boy with a howling toothache that this is the Lord's day and he must let her howl? Must I—Will I—"but his convictions and his pain were too much for him, and he stabbed himself to death with his own prescription

AN AUTHORITY ON SABBATH WORK. "What man is there among you if his ox or his ass fall into a pit on the Sabbath day that will not take him out." These quota-tions may not be literal, but the sense is preserved and proper credit given, and the only reason they are used is because they

are so singularly appropriate.

His store was closed, and he had turned away a score of applicants, many of whom, he thought, had prescriptions for more or less dangerous ailments. He said Quay's ideas that the blue laws could said Quay's ideas that the blue laws could not be tampered with were only the expressions of one man. Boston had once gone through just such a siege, even going so far as to close entirely on Sunday, and hanging crape on the doors, with the result that on May 10, 1887, a supplement was added to the blue laws in that Stare that gave the widest Sahbath libesty. among his brother druggists, and found most of them open. He then took in his sign and merrily propounded prescriptions

sign and merrily propounded prescriptions all day long.

J. R. Gasaway, on the corner of Federal and North avenue, was found to be open and doing a good business. The gentleman is most certainly a man of convictions, and he freely expressed them when he told why he remained open.

"It is merely a move of retaliation," said he, "intended to arouse public opposition to laws that hind them. A man was here to

DEFIES THE LAW AND ORDER. "I am selling certain medicines and specifics without a prescription because I think it is right. We are here to relieve suffering and if I am sued I will appeal and carry it on to higher courts, and I will call as wit-nesses those to whom I sell. It may not be necessary for me to sell these medicines, but it is certainly necessary that the sick people shall buy them. I am not selling in defiance to any law and order, but because I have hundreds of regular customers whose doctors have told them just what they need, or to refill certain bottles of to the pool of Siloam and I do not propose to go into a movement that will make my friends and customers suffer instead of my-Foley, Esq., was elected Chairman, and W.

Mr. Rankin, on Sixth street, was found o be open only during the hours specified. He differed very widely from the views expressed by Mr. Gasaway. He thought every man was entitled to his opinions and should stick by them, and that the druggists' move and odd years of age, while now they can would result in some wiser law being scarcely struggle through with the odd enacted. THE LAW AND A LIFE, A Druggist Gets Lemons of a Grocer For a

looking. "I cannot fill it," the druggist said, "without violating those precious old blue laws, and it is really a case of life and death. The patient for whom it has been prescribed is in the very lowest stage of typhoid fever. This prescription is the last one resorted to by physicians in that disease. Made by Leading Knights of Labor-Will the Barry Meeting This Evening Result in a.Rlot? The arrival of Tom Barry and his inten-

The first step in this direction was take on Saturday by Master Workman Doyle, who announced that Barry should not address any meeting in the D. A. hall. He also notified the trustees not to lease the hall for a Barry meeting. The hall is in charge of a Board of Trustees, and any one member can sign a lease and receive the money for the use of the hall. This can very easily be done, and, although I have not taken side with Mr. Barry, I believe in Powderly's motte, "Hear both sides, then judge." I am determined to do all in my power to sid Mr. Barry in laying his case before the members of D. A. 3. If he is wrong, the members need not pay any attention to his advice to withdraw from the order; but if he is right it is time that something is done. If Barry's charges against Powderly and the members of the G. E. B. are false, why don't they sue him for slander? Barry is evidently right when he says they are afraid to appear before the bar of the order, the bar of public opinion or in a court of law to answer these charges. I have been a Knight of Labor for many years and would like to see these troubles settled, and the order would soon regain lost ground.

There were hundreds of Knights of Labor around the hall yesterday afternoon and evening, inquiring for news concerning the Barry movement. Some of them say that Powderly members will undoubtedly turn out in full force and attempt to break up the meeting; but the latter say they will use no violence, but will try to prevent the

meeting in a legitimate way. One of the most startling reports that was ever circulated in the ranks of the Knights of Labor came from a member who recently returned from Philadelphia. He said: "I believe there is a scheme on foot to destroy the \$50,000 palace at Philadelphia by fire, in order to destroy the records, which, if produced in court, would injure some people. If the brilding is burned down and the records are destroyed, Barry will have some difficulty in proving some of his charges.'

The statement was mentioned to a man in anthority in the order, and one whose opinion is worth something. He refused to al-low the use of his name, but said: "I would not be surprised to hear of the building being destroyed, and have been ex-pecting to hear of it every day."

A Pittsburg Firm Ships Its Engines to Every

Lumber Needed to Pack One. Pittsburg locomotives are now shipped to every part of the civilized world. Their levers are operated by the hand of the Japanese engineer as well as the darkskinned engine driver of the South Ameri-

A young Lawrenceville mechanic, Mr. William Byers, will accompany the engines to their destination and superintend their re-

construction. The greatest obstacle to be overcome in hipping of such freight to foreign markets is in packing them. Each of these engines have been put together in their works, and have been subjected to a severe test. This is necessary as the contract demands that the engines must prove entirely satisfactory before they are accepted by the railroad company. They are then taken spart, and each piece of the engine is packed in a separate box, which is made expressly for that purpose. About 1,500 teet of the best hemlock lumber was required to pack one of these little engines. They are shipped to New York, and from thence by a sailing vessel to their destination

Each is supplied with automatic and steam brakes. The airbrake has not yet been introduced. The couplings also differ slightly from engines used on American railroads. The furnaces are so constructe that either coal or wood can be used as fuel. This is the first shipment of engines ever made to Buenos Ayres by this firm, who enjoy the reputation of being the first firm to in troduce an engine in Eastern Asia. A model engine is now being constructed for the World's Exposition to be held in Paris during the coming spring. It is ex-pected to win the first prize in the exhibi-tion of light locomotives.

Case No. 2: Joseph Crawford, a finisher employed at McKenna's brass foundry, tried to commit suicide yesterday afternoon at the Bank Exchange Hotel, by stabbing himself with a pocket knife. For some time he has been on a spree, and for two or three days has been going through the annealing process known as "tapering off." Yesterday he could get no liquor and, becoming temporarily insane, went to his room. The occupant of the adjoining chamer heard him cry out:

"I've done it! I've done it at last!" Upon rushing into the room the man found Crawford lying upon the bed with the blood streaming from gaping wounds in his breast. He said he was tired of life and wanted to die. He is said to be a son of Samuel Crawford, of Brownsville avenue, Southside. He separated from his wife some time ago. He will recover from his wounds.
